CLUTCH ASSIST FOR HARLEYS

Does your 1985 and newer Harley-Davidson have a clutch you love to hate? Does it require a Herculean tug on the lever? Does your left forearm pump-up by the time you've left your neighborhood? If you answered yes to any of these questions, AMP has the solution to your problem. Called the AMP RESEARCH EZ-PULL CLUTCH ASSIST, this device is designed to ease the effort required to pull in, and hold in, your Harley's clutch lever.

FEATURES:

Reduces clutch pull effort by 50%.

Hardened steel gears rotate on sealed bearings.

Die cast aluminum outer case.

Available in high-quality chrome or black finish.

Simple bolt-on installation to the underside of the stock lever perch.

Built-in adjuster for altering the clutch lever's reach.

Designed and manufactured in USA.

See your dealer or call 1-888-983-2205 or visit www.amp-research.com for more information.
